Mrs. Susan Ellis

Dear Madam President,

I am Mrs. Janelle Cox- Douglas the Co- Founder and President of the Taraji Foundation Inc of St Vincent and the Grenadines.

The Taraji Foundation is a Non- Profit Organization that has been around since 2013 as a Community Based Group and on April 8th 2015 became a Non Profit with the purpose of bringing self-sustainable philanthropy to St Vincent and the Grenadines through Education, Crisis Intervention, Job Creation, Entrepreneurship, Disaster Preparedness, Tangible Donations and Relief.

“Taraji” the Swahili verb (the doing word) meaning “HOPE” is the concept in which Taraji was born. Noting the socio- economical situation in St Vincent and the Grenadines, Taraji provides ‘hope’ for vulnerable children and families.

Taraji seeks to assist youths to awaken their civic consciousness, to become greater citizens while fostering community spiritedness through active impactful activities and projects. Taraji has two major distributions yearly; Back to School and Christmas Distributions. Throughout the year we continue our distributions as well.

The Taraji Foundation has undertaken an additional project in 2016 called **The Taraji Foundation’s Nationwide Distributions** which will be commenced on Saturday April 30th 2016. This project seeks to reach vulnerable children and families in the poverty stricken communities across St Vincent and the Grenadines.

Taraji is kindly requesting your organization, SVG Helping Hands Inc to assist us in our venture by donating tangible items to this project as we intend to impact St Vincent and the Grenadines.

Our desire is to reach the unreachable; hence we support unpopular preschools, organizations and causes. Our goal is to teach, empower and restore indigent citizens by giving them a sense of hope. Taraji documents all recipients and keeps a yearly record of persons we assist. We show accountability to donors by taking photos and videos.

We do hope our application will be considered.

Yours In Philanthropy,

Mrs. Janelle Cox- Douglas
